

Hi, I am the traffic light.
I tell you when to wait and when to cross.

And I am the crossing, see the painted lines.

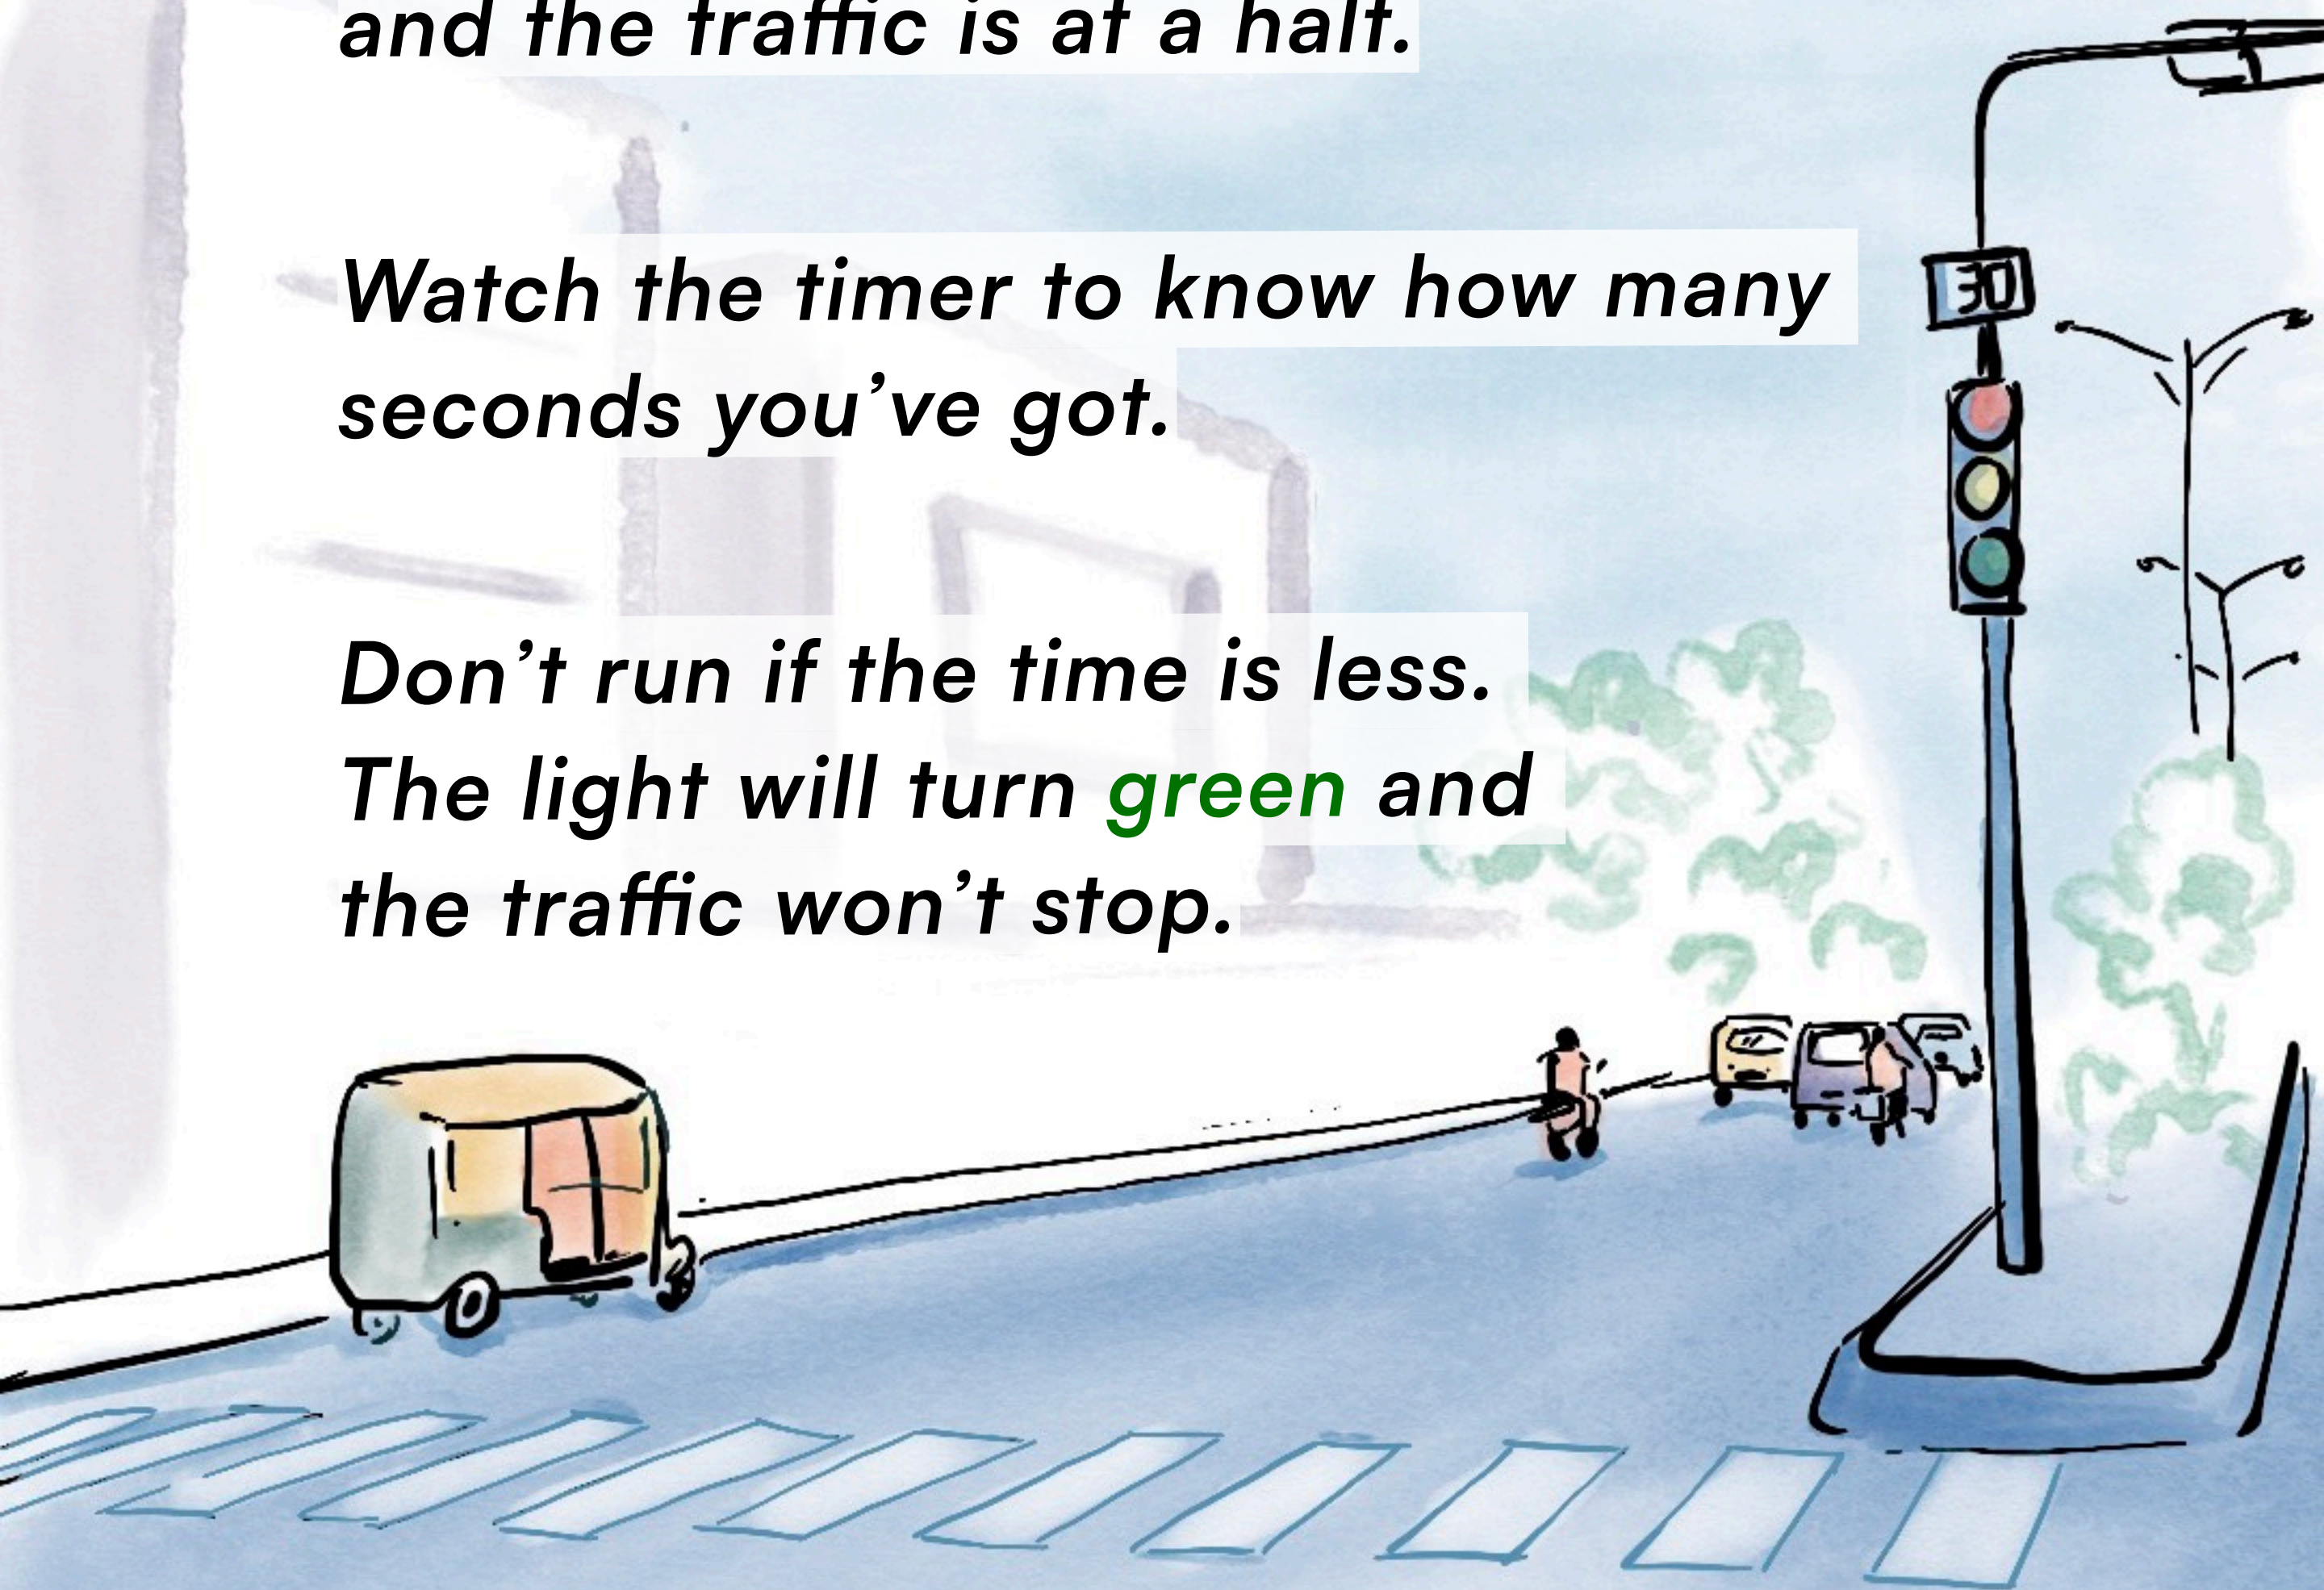

I take you to the other side.

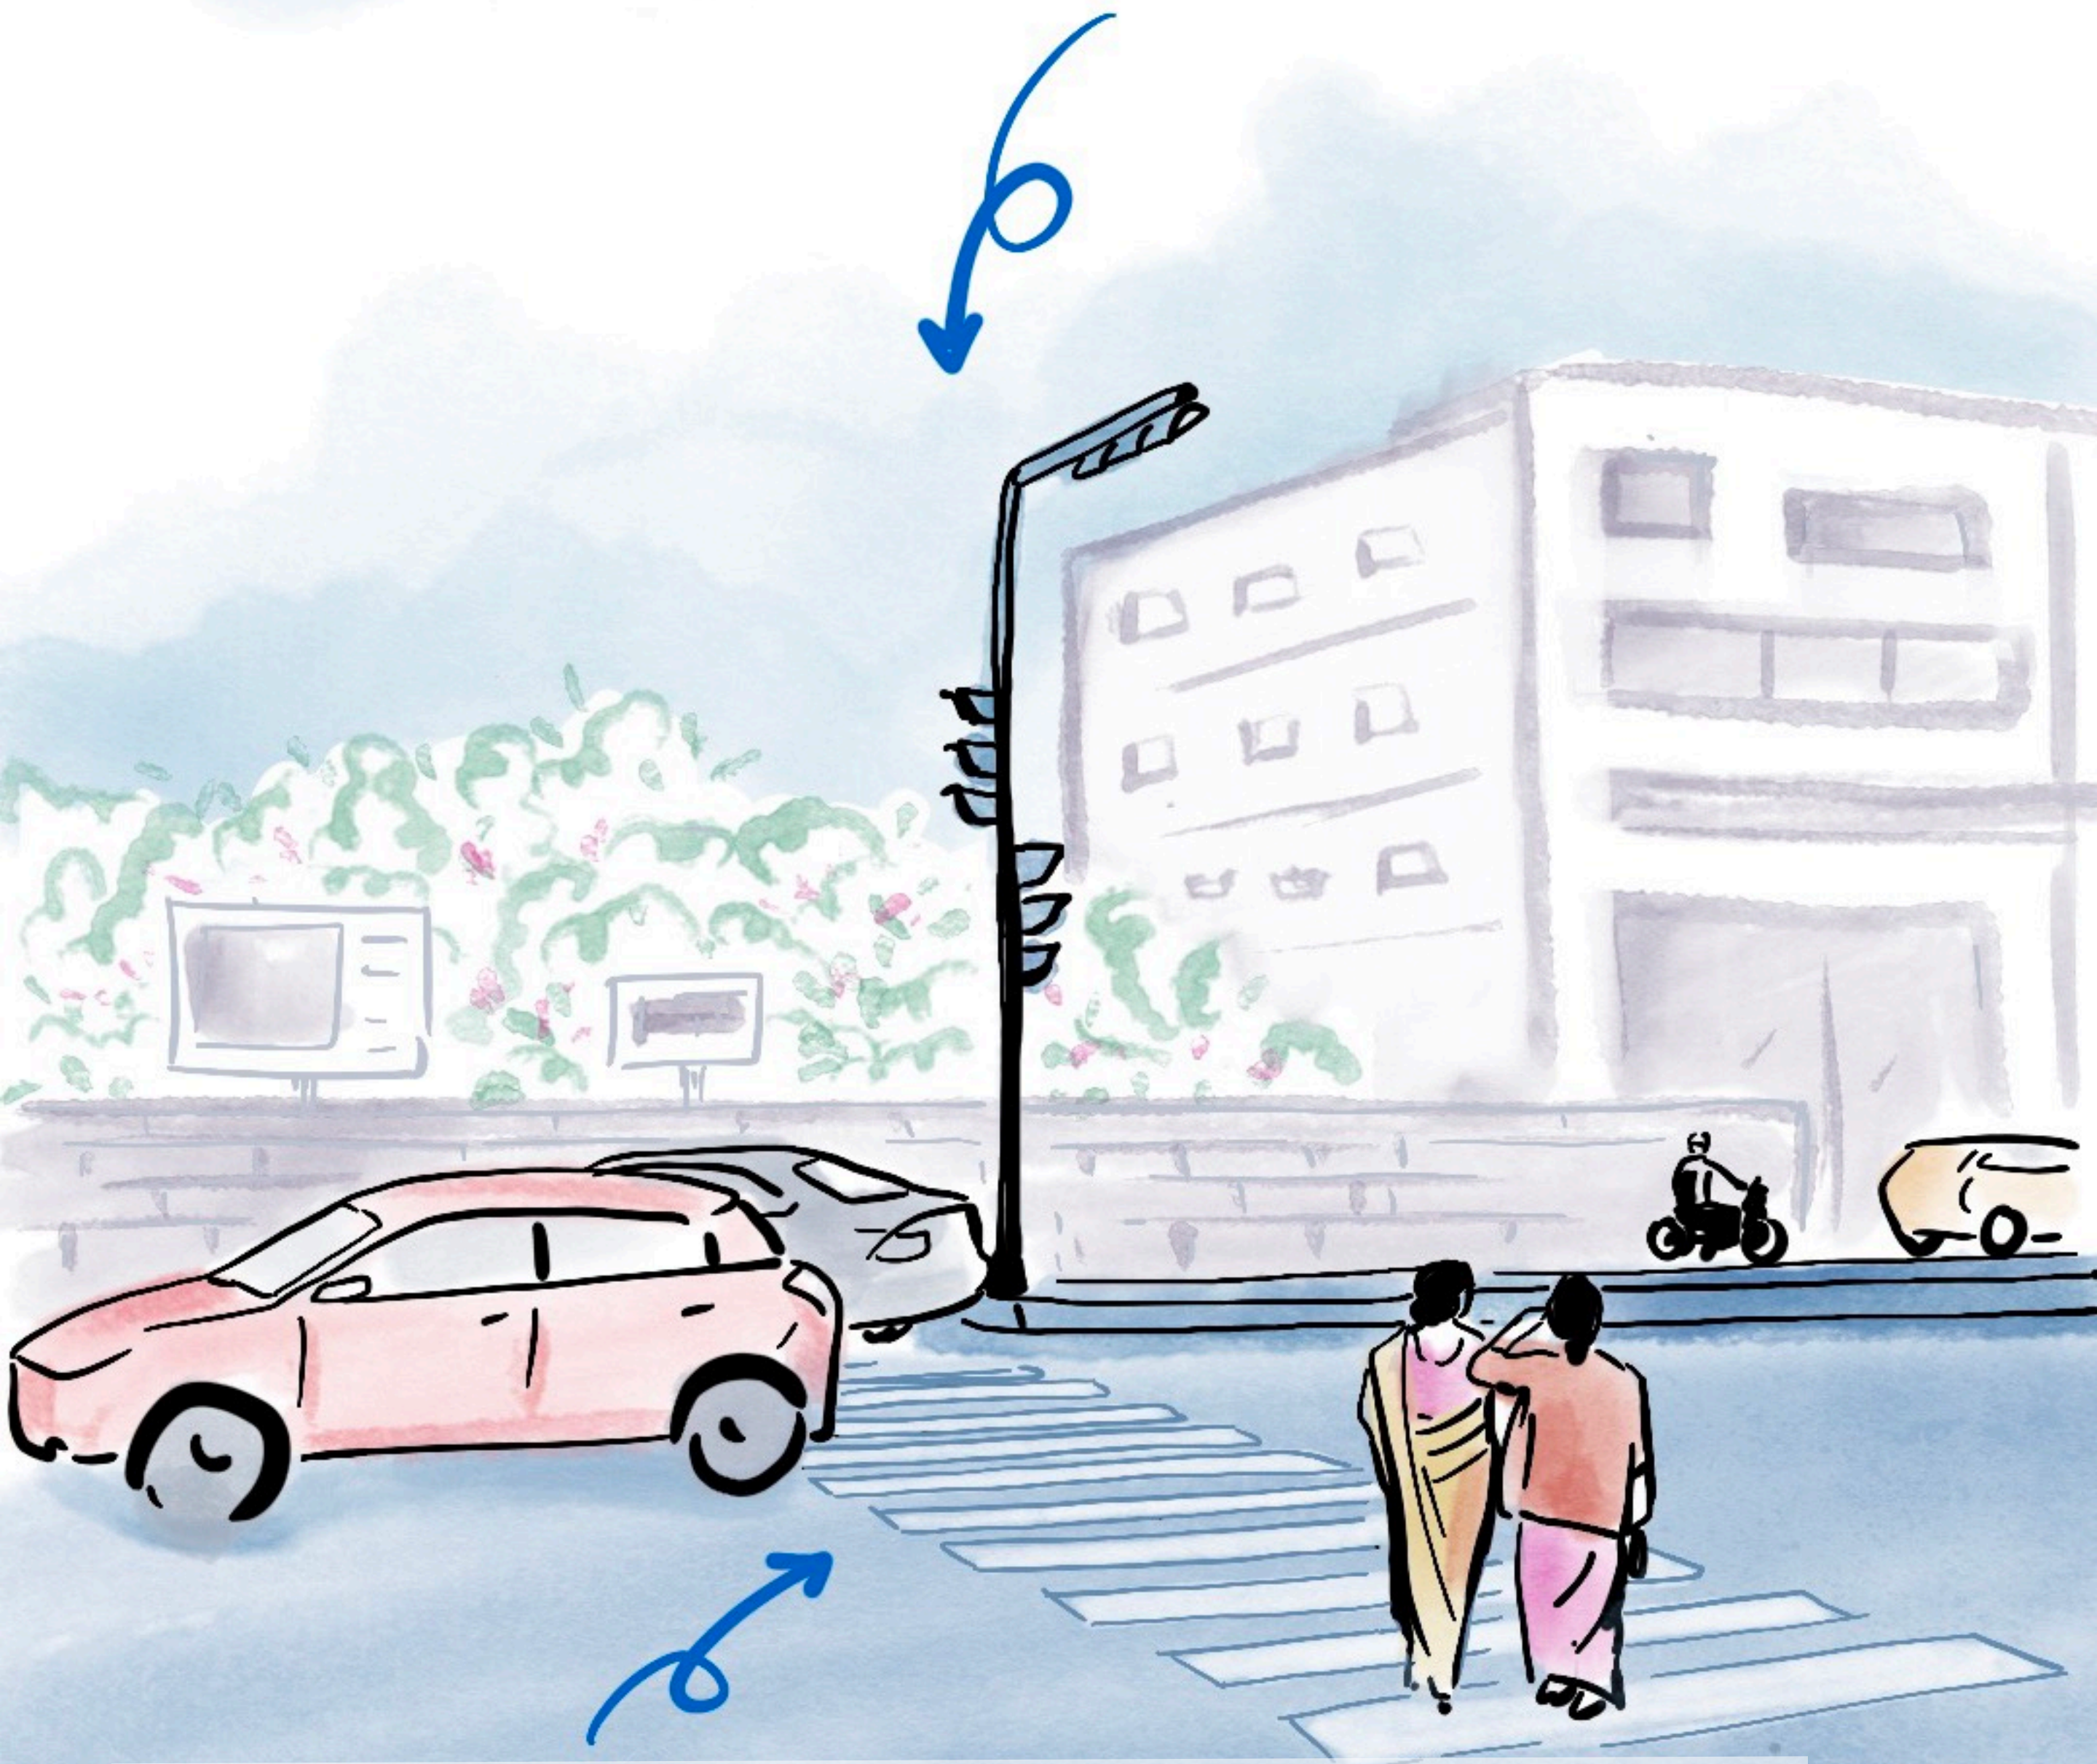

*Cross the road when the light is **red** and the traffic is at a halt.*

Watch the timer to know how many seconds you've got.

*Don't run if the time is less.
The light will turn **green** and the traffic won't stop.*
